and Broadcasting
Government of India

Certificate *of* APPRECIATION

TO WHOM IT MAY CONCERN

This letter is to acknowledge Bharath Kumar, a member of Team V.ARISE for their valuable contribution in the XR Creator Hackathon 2025—an initiative by the Ministry of Information & Broadcasting under the Create in India Challenge.

Among more than 2,200 submissions in XR Category from across India, V.ARISE successfully developed a Minimum Viable Product (MVP) titled "PhobiaXR", based on Extended Reality (XR) technology aligned with the hackathon's theme. Their innovation and consistent effort helped them secure a place among the top 40 finalist teams nationwide.

Throughout the hackathon, Bharath Kumar showed dedication and effective collaboration with their team, which played an important role in their success. We appreciate their enthusiasm and commitment to exploring immersive technology solutions.

We wish Bharath Kumar continued success and believe this experience will serve as a solid foundation for their future endeavors in the XR domain.

Sincerely

Ashutosh Kumar
CEO & Founder, Wavelaps
